**SUNSHINE STATEMENT**

Councilwoman Horgan requested the minutes reflect that, in compliance with Public Law 1975, Chapter 231 (Open Public Meetings Act), notice of this meeting has been provided by notifying the Asbury Park Press, the Two River Times and the Star Ledger and by placing a notice on the bulletin board and filing same with the Borough Clerk on September 23, 2021.

ALSO PRESENT: Interim Administrator McConnell, Borough Clerk Borghi and Attorney Cannon.

ABSENT: Mayor Menna (joined at 6:57pm) and Councilman Yassin (joined at 6:47 pm)

\*Meeting held via video/telephone conference due to Governor's Executive Order.

**PROCLAMATIONS, ANNOUNCEMENTS & PRESENTATIONS**

**Proclamations**

Councilwoman Horgan read a proclamation honoring 2021 Monmouth County Teacher of the Year – Alyssa Geary.

Ms. Geary said the past year had had many highs and lows and thanked the Council for honoring her.

Superintendent Rumage thank the Council for honoring Ms. Geary and recognizing the school district.

Councilwoman Triggiano read a proclamation proclaiming October 2021 as Breast Cancer Awareness Month in the Borough of Red Bank.

Councilman Yngstrom read a proclamation proclaiming October 2021 as Italian Heritage Month in the Borough of Red Bank.

**PUBLIC COMMENT (AGENDA ITEMS ONLY)**

Councilwoman Horgan opened Public Comment for agenda items only.

Suzanne Viscomi—25 Cedar Street—asked about Ordinance 2021-21 and said the Attorney had previous said there was a time constraint regarding the \$160,000 bond and asked for specifics. She also asked what additional professional costs would occur and if they would be inclusive of the \$160,000.

Interim Administrator McConnell said the \$160,000 would include the professional services costs.

Councilman Yassin arrived at 6:47 pm.

Ms. Viscomi again asked about the time constraint.

IA McConnell said he believed it had to do with the time the Borough had to award an contract after the receipt of the Requests for Proposals.

Attorney Cannon explained the details of the award requirement.

Mary Beth Maida—84 Branch Avenue—asked about Resolution 21-280 regarding a settlement of a matter before the Government Records Council (GRC). She asked for details on the case and asked if the requestor had been improperly denied.

Attorney Cannon said according to the GRC, that was the finding. He reviewed the details of the case.

Ms. Maida asked about her pending case and asked what her options would be if they found in her favor. She also asked how much money had been spent on GRC complaints.

Attorney Cannon said, since he had been with the Borough, there had only been two. He noted the Borough received hundreds of requests each year.

Ms. Maida asked if Attorney Cannon had provided the GRC with the requested documents.

Attorney Cannon said he had not and reviewed the procedure.

A discussion followed on the process.

Ron Costa—138 Bodman Place—asked about the Bond Ordinance and asked why the Borough was going through the expense of a bond if there were funds available.

IA McConnell said he had spoken with the CFO, the Auditor and the Bond Attorney and this was the ultimate recommendation. He said the only option to do the funding this year would be through the bond

because it had not been factored into the budget. He said they had looked into using the Capital Improvement Fund but both the Auditor and Bond Counsel rejected that and stated it would not be a legal course of action. He said they had documentation from the Division of Local Government Services confirming that information. He said the other option was to use the Capital Bond Fund but said that was not an option they could use this year because they had not put it in the budget according to both the Auditor and the Bond Counsel.

Mayor Menna arrived at 6:57 pm.

Mr. Costa asked if the method was being used to get around the budget cap.

IA McConnell said it was not and added that they were simply issuing notes because the funds could be repaid over the next five years.

Mr. Costa again asked if it had to do with exceeding the budget cap.

IA McConnell said it did not.

Mr. Costa read from the 2020 Tax Assessor's Handbook Update noting that this would be an allowable exception. He said he felt this was a way to get this done if the budget cap was an issue.

IA McConnell said that was not the intention at all. He said they had only gone out to bid for the proposals in September. He said it had been well after the budget was adopted. He said the intent was not to go around the budget cap. He said it was simply a legal means and a common means of funding a Master Plan.

Mr. Costa asked why they were not using monies that were already available.

IA McConnell said he had just explained that when he reviewed the reasons they could not use the Capital Improvement funds.

Mr. Costa also noted that there was \$6 million on the bill list at this meeting. He asked who was vetting the invoices.

IA McConnell reviewed the approval process.

Mr. Costa asked if the Borough had met the 2.5% budget cap.

Attorney Cannon said they had been under the cap as they had a cap bank.

A discussion followed on the budget process.

Councilman Zipprich asked if they could use the Capital Funds by adopting an ordinance in a similar process.

IA McConnell asked if he was referring to the Capital Fund Balance and said the answer was yes and no.

No one else appearing, Councilman Yngstrom offered a motion to close the Public Comment period, Councilman Yassin seconded.

Councilman Yassin offered a motion to adopt the ordinance, seconded by Councilman Yngstrom.

Councilman Zipprich again asked if they could use Capital funds through an ordinance adoption in the similar process citing Special Emergency. He said, if so, would the Capital Fund Balance ordinance have been included in the budget earlier.

IA McConnell said the Capital Improvement Fund could not be used. He said he realized the terms were similar but, according to both the Auditor and Bond Counsel, they could not use the Capital Improvement Fund. However, he continued, the Capital Fund Balance could be used but not in this budget year because they would have had to factor that into the budget. He said they would have to wait for next year's budget to move the money from the Capital Fund into the actual budget.

Councilman Zipprich claimed information out in the public was misleading. He said there was information circulating that this has been in process since May of 2021. He also questioned if the Bond Counsel was in conflict because they would only make money for that service if the Bond Ordinance was issued.

Attorney Cannon said it was not a conflict.

A lengthy discussion followed on the process, the timing and the budgeting of funds.

Councilman Yassin offered a motion to approve the resolution, seconded by Councilwoman Horgan.

Councilman Ballard asked who the people were that were referenced in the resolution that were making decisions for the Red Bank taxpayers.

Attorney Cannon asked for clarification.

Councilman Ballard said the resolution referenced that the Monmouth County Police Chief's Association had been consulted and asked why that was.

Attorney Cannon explained that there had been an effort to provide a coordinated response when multiple municipalities received the same OPRA request. He reviewed various OPRA cases and disclosure decisions.

Clerk Borghi stress that the complaint had been sent to every municipality at the same time which was why the County Chief's Association had been consulted.

Councilman Ballard asked if the groups that offered an advisory opinion would be contributing to the settlement.

Attorney Cannon said the Borough would be responsible.

A discussion followed on the complaint process and the Government Records Council's (GRC) response.

Chief McConnell also stated that the matter had not just been reviewed by a group of Police Chief's. He said the association had an attorney that had provided the advice. He also noted that the request had not been denied but said the Borough had requested a special service charge because it was going to cost the Borough a lot of money to fill the request as it would involve a huge amount of man-hours.

Clerk Borghi agreed and said an estimate had been provided to the requestor for the special service charge and he had not responded. She said he just filed a complaint with the GRC and they had found in his favor.

Councilman Ballard asked if the person had gotten the information and was also getting paid by the Borough.

Clerk Borghi said that was correct.

Councilman Ballard expressed concern about the process.

A discussion followed on that process.

#### **PUBLIC COMMENT (Governmental Issues, 5 Minute Limit)**

Ben Forest—16 Locust Avenue—said he like the education program offered by the Planning Department at the Library. He said he appreciated the outreach and reviewed his thoughts on the presentation. He also congratulated the Mayor and Council for supporting the Planning Board by voting in favor of moving forward with the new Master Plan.

Mary Beth Maida—84 Branch Avenue—said she wanted to follow up on Councilman Zipprich's statement that the final plans for the Senior Center had been received before the public comment session scheduled for October 27.

Councilman Zipprich said the design work had been completed and that it was a comprehensive plan. He reviewed specifics of that plan.

Ms. Maida asked what the point of the October 27 public session was if the design was final. She criticized the process and also criticized comments she said were made by Councilwoman Horgan.

Councilwoman Horgan denied making the comments asserted by Ms. Maida. She also expressed concern of Councilman Zipprich's claim that he had received the "final plan." She said she had not seen it and didn't believe anyone else on the Council had seen it. She asked how he had received it.

Councilman Zipprich said he had met with the architect.

Councilwoman Horgan questioned if it was final. She again noted she had not seen it.

Mayor Menna said it was not the final plan until it was approved by the Council. He also said it would not be final without public input. He said what was being presented were the final work documents for discussion.

Councilwoman Horgan said it did not help to stir people up with rumors.

Councilman Yngstrom noted that there would be a meeting next week held both electronically and in person. He said the Borough would take the public input and forward it to the professionals. He also noted there would be no final plan until the Council voted on it.

Michael Humphreys—12 West Lake Road—said he was deeply dissatisfied with the way the town was being run and the way the elected officials were not working with each other. He said the town was

currently in a dysfunctional state having lost the CEO and the CFO. He said there was a ridiculous situation with the Senior Center. He said he was very concerned and said it was not running for the residents.

Angela Mirandi—8 West Lake Road—said she wanted to echo the comments of Mr. Humphreys. She said she hoped the Council would get together and work together to do the right things for the residents. She also said she wanted to know how much money was in the Capital Improvement Fund and the Capital Bond Fund.

IA McConnell said he would have to check with the CFO to verify the balances.

A discussion followed on the estimated amounts.

Ms. Mirandi asked if the money from those funds could be moved into the general fund in the following year to cover the Master Plan costs.

IA McConnell said there was a method to move money from the Capital Bond Fund to make payments or pay off the notes but said it would deplete the fund. He said both the Auditor and the Bond Attorney said you could not do that with the Capital Improvement Fund.

Ms. Mirandi asked if the money in the Capital Improvement Fund would just sit there.

IA McConnell said it could be used for certain expenses but not for a Master Plan.

Ms. Mirandi said the Redevelopment Agency had said they were looking for the Council to give them guidance on what they should be working on next. She said she believed they had previously recommended that the Borough purchase the property next door to the DPW facility and recommended that the Borough do it quickly. She asked where the Borough was in that process. She said if that wasn't going to happen, the agency should go back and finish that project. She said she also thought the Agency was supposed to form a subcommittee to review Borough Hall but said they had not heard back on that.

Mayor Menna said those items were still in open contract negotiations with respect to properties and could not be discussed in public.

Ms. Mirandi asked if the Council was working on additional projects for the Redevelopment Agency.

Mayor Menna said they were still working on those project.

Ms. Mirandi said the Agency Commissioners had said they were looking for their next project.

Mayor Menna said thought they were looking to integrate their thoughts on those projects with the Council.

Councilman Zipprich said, regarding Ms. Mirandi's question about funding, that the revenue could be sourced in next year's budget.

Suzanne Viscomi—25 Cedar Street—asked if Councilman Ballard had stated that when he had been Finance Committee Chair he had budget money for the Master Plan and, since the money had never been executed, that it had rolled into surplus.

Councilman Ballard said that was correct.

Mary Beth Maida—84 Branch Avenue—asked how much was in the budget for the architect to implement any public comment changes. She also asked about the rollout time following the 10/27 meeting and the incorporation of any possible changes. She also asked, if the Senior Center was going to be a hybrid, why that couldn't be done across the board. She also noted that there had been references to asking the CFO and asked who was.

IA McConnell said the Architect was being paid for the final product no matter how many changes were made. He said they would be paid when the work was final. He also said they had not provided final construction documents yet and what had been received were working documents. He said the timeline would depend on the number of changes and Council action. He said the work would then be bid and financed through bonds. He said he assumed it would take a couple of months. He said, regarding hybrid meetings, they knew there was significant public interest in the project and had done everything they could to make it accessible. He said they had obtained quotes to get equipment to do that more regularly but said they had come in high. He said for the 10/27 meeting, they were using additional staff and personal equipment to accomplish it for one meeting. He said they could not be sustained twice a month plus the additional land use boards. He said he had not stated that he had gone to the CFO for advised but rather had consulted the Auditor and Bond Counsel who were appointed annually by the Mayor and Council. He said they did, however, had a firm appointed as the interim CFO.

Ms. Maida asked IA McConnell how the Senior Center plans that were in front of him had been labeled.

IA McConnell said he had not received the plans and had never seen them.

Ms. Maida asked Councilman Zipprich to read it to her.

Councilman Zipprich read from the plans and said it stated "bidset."

Ms. Maida said she did not trust the process and found it suspect. She asked for more specifics on the labeling of the documents.

Mayor Menna said they could not answer regarding now something was labeled when they hadn't seen it. He said only one person had seen it. He stressed once again that it was not a final document.

Councilman Zipprich said it was clearly labeled "bidset."

Ms. Maida asked if "bidset" meant that was what was going out for bid. She asked if it was a done deal.

Councilwoman Triggiano read a definition of "bidset."

Attorney Cannon said it was not final until the Council voted on it.

Councilman Yngstrom agreed and said there was a meeting next week where they would consider public comment.

No one else appearing, Councilman Zipprich offered a motion to close the public comment, seconded by Councilwoman Triggiano.

Councilman Zipprich asked if the sanitation contractor was picking up the plastic film.

Director Keen said they were not and that it was being done by DPW staff.

Councilman Zipprich asked for details on the pickup procedure.

Director Keen explained how the program was operating.

Councilman Zipprich expressed concern about the potential amount of material that may need to be collected.

Director Keen said they would monitor the amount of material and said the goal was to get people the ability to recycle the plastic film.

Councilman Zipprich asked if the Borough would be compensated for the film when it was passed on.

Director Keen said plastic film did not currently have a cash value.

Councilman Zipprich said he understood the importance of getting rid of plastic film but noted the Borough had previously seen a return on paper and cardboard materials. He asked if it was costing the Borough money to dispose of the material. He asked if there was money to offset labor costs.

Director Keen said the company taking the film had not committed to paying labor costs or removal fees. He said the Borough had signed a contract for a one year study and could reevaluate at the end of the term.

### **LAND USE**

#### Ordinance to Amend Height Requirement in WD Zone

Mayor Menna reviewed the ordinance that would call for the lowering of a height requirement.

Director Ebanks said the Planning Board had asked their Engineer to do a memo to provide an analysis on whether or not the current standard of the zone was adequate. She said the Board found the language confusing and reviewed the proposed changes.

Councilwoman Triggiano asked if this should be part of the Master Plan.

Director Ebanks said she didn't think it wouldn't make a difference.

Councilman Zipprich asked for more information on the proposed changes.

A discussion followed regarding the reasoning behind the changes, the Master Plan process and the timing.

Councilwoman Triggiano and Councilman said they would like to see it included with the Master Plan.

Mayor Menna suggested they should get more information from the Planning Board.

#### Master Plan Award

Councilman Ballard asked about the process that lead to the award.

Director Ebanks reviewed the RFP process and the review that had been done by the Master Plan Committee. She explained the reasoning behind the firm that had been recommended.

Councilman Ballard expressed concern that the chosen firm had been the second highest bid out of five and had had experience serving much larger municipalities. He was also concerned that the review had been done by the Master Plan Committee in private and said he did not feel it was a transparent process. He called for the matter to go back to the full Planning Board for a review of all five proposals and input from the public.

Mayor Menna said Councilman Ballard's comment that the full board was not aware of the proposals was incorrect. He said the board had received the proposals and delegated it to the subcommittee.

Councilman Ballard said the public had not been given the information.

Mayor Menna compared the situation to when the Council reviewed firms for professional appointments such as Engineer and noted that that process was not done in public.

Councilman Ballard said they had done it in the past for projects such as Marine Park. He stressed the importance of the project and called for public input. He said he would not support any Master Plan that came from the opinion of three people.

Councilman Yngstrom said the appointed firm would be seeking public input. He said it was different than the Marine Park project and noted that had hired the design firm through the Parks & Recreation Executive Committee after interviews that had been done by the Administrator and Director. He said that firm then went to the public for input. He said the Marine Park design firm appointment had actually been done the same way as the process being done for the Master Plan firm.

Councilman Ballard asked Councilman Yngstrom if he was okay with a subcommittee of the Planning Board selecting the vendor for the Master Plan without public engagement.

Mayor Menna said the subcommittee did not select anything. He said they recommended to the Planning Board and the full board deliberated.

Director Ebanks reviewed the various ways a consultant could be chosen. She said, in this case, the Planning Board chose to delegate to the Master Plan Committee because they would be steering the project. She said Municipal Land Use Law did not require it to be voted on the by the full Planning Board.

Councilman Ballard asked if there was a prohibition for the Planning Board to be involved in the process.

Director Ebanks said it was not a requirement.

Councilman Ballard asked again if there was a prohibition.

Director Ebanks said not really.

Councilman Ballard called on his fellow Council members to join him in asking the full Planning Board to go through the process to select the vendor.

Councilman Zipprich said the Master Plan Committee was a subcommittee of the Planning Board and, according to Robert's Rules of Order, they should report back to the full board with a recommendation. He said the Board should ultimately take action. He asked if the Master Plan Committee should refer it back to the full board for discussion and action.

Director Ebanks said, if that was the Council's decision, she would place it on the next Planning Board agenda.

The Council consensus was to send it back to the Planning Board for recommendation.

#### **BUILDING**

#### **CORRESPONDENCE**

##### Request from Superintendent of Red Bank Public Schools

Mayor Menna acknowledge receipt of a letter from Superintendent of Schools Dr. Jared Ramage. He asked Dr. Ramage to address his request.

Superintendent Ramage reviewed his letter to the Mayor and Council address the Red Bank Charter School's application for five year renewal of their Charter. He said the Red Bank Board of Education had a strong opposition to the renewal. He said he felt very strongly about creating one unified school district. He outlined his reasons behind the request.

Mayor Menna said they had received and reviewed Dr. Rumage's documentation. He said he understood the process was under the jurisdiction of the NJ Department of Education. He said, if the Council was inclined to consider a resolution regarding the Charter renewal whether in the affirmative or negative, it would be forwarded to the Commissioner of the NJ Department of Education.

A discussion followed on the renewal timeline.

Mayor Menna said, if the Council was inclined, it would be placed on the next agenda.

Councilwoman Horgan said she supported Dr. Rumage in trying to create on school system. She said she had taken a stand on the matter five years ago when they were not only applying to renew their charter but were also seeking expansion. She called for a resolution to support Dr. Rumage and the school district and called on her fellow Council members to follow suit.

Councilwoman Triggiano said she believe any resolution from the Council directed to the Department of Education should be to make sure they were doing their job in regard to the renewal process. She said she would like more information from the Department regarding the transition plan should the Charter School cease to exist.

Dr. Rumage said the Commissioner had a legal responsibility to investigate the segregative impact of a Charter School on a community. He reviewed the accomplishments of the public school district. He said he was certain that the DOE would support him and ask for his input regarding a transition plan. He pledged to do his best to make it a seamless transition.

Councilwoman Triggiano asked that the request for a transition plan be spelled out in the resolution.

Councilman Zipprich asked if the Board of Education had been part of the process in requesting a resolution from the Council.

Dr. Rumage reviewed the process that had been done in 2015 and in 2021.

Councilwoman Horgan reminded Councilman Zipprich that the Mayor had created a Blue Ribbon Commission to study the issue in 2015 which resulted in a resolution from the Council.

Mayor Menna confirmed the process regarding the Charter School's request for an expansion.

Councilman Ballard said he appreciated Dr. Rumage's passion and noted that the state had approved the Charter School's renewal five years ago, although without the expansion. He asked if Dr. Rumage knew if the reasoning behind that decision had been documented.

Dr. Rumage said he had not been provided any data on that. He added that, in regard to the timeline, he expected feedback from the DOE in late January or early February but said that did not mean that a decision would be made by that time.

### **Council Comments**

She said she was also disappointed that Dr. Rumage was questioned on whether or not he

had thought through a transition plan. She said the Council should have trust in his leadership. She encouraged the Council to make the matter a priority.

Cindy Burnham—71 Wallace Street—said she was curious, since the other Boards were meeting in person and there had been a hybrid meeting regarding the Senior Center, when the Council meetings would be held in person or as a hybrid.

Mayor Menna said most of the towns he dealt with were having in person meeting and he said he did not see any reason by Red Bank could not meet in person.

A discussion followed on the various options with in person meetings and possible telecasting.

Kristina Bonatakis—122 Riverside Avenue—thanked Councilman Ballard for his concern regarding the equity in the selection process for the Master Plan Consultant. She said she also wanted to call in as a member of the Master Plan Subcommittee to explain her thoughts on the matter. She said it had been a woman-lead team that had gone through the proposals with a fine tooth comb. She reviewed the considerations and the recommendation that had been made.

Councilman Ballard thanked Ms. Bonatakis for her comments and again stated the importance of the process being done in public.

Suzanne Viscomi—25 Cedar Street—said she was also a School Board member who was speaking her own behalf. She said she wanted to piggyback and Ms. Garcia's comments.
