JULY 2024

As we approach Independence Day, it is more important than ever to reflect on the significance of this historic day and why we continue to celebrate it. The Fourth of July is not just a day off from work or an excuse to have a barbecue, but a reminder of the sacrifices and struggles our forefathers endured to secure our freedoms.

In a time where political divisions run deep and tensions are high, we must remember the unity that was forged during the fight for independence. The Declaration of Independence was a bold statement that all men are created equal and have the right to life, liberty, and the pursuit of happiness. It was a declaration that laid the foundation for the principles of democracy and freedom that we hold dear today.

Celebrating Independence Day is a way to honor the resilience and determination of those who fought for our freedom. It serves as a reminder that no matter how difficult the circumstances, we have the power to overcome challenges and create a better future for ourselves and our country.

It is important to remember that we are all Americans first. We may have different beliefs and opinions, but at the end of the day, we are united by our shared values and love for our country. Independence Day is a time to put aside our differences and come together to celebrate the freedoms that we all enjoy.

Let us remember the importance of unity, freedom, and democracy. Let us be grateful for the rights and privileges that we have today because of the sacrifices made by those who came before us. Let us look to the future with hope and optimism, knowing that we have the power to shape our destiny and create a more perfect union.

So, as we gather with friends and family on the Fourth of July and wave our flags and watch the fireworks light up the sky this Independence Day, let us do so with a sense of gratitude and optimism for the future. Let us remember the importance of Independence Day and why we celebrate it – because our freedom and democracy are worth celebrating and preserving for generations to come.

New Form of Government Turns 1!

It's hard to believe that it has already been a whole year since Red Bank made the transition to a new form of government, but here we are, celebrating the one-year anniversary of this momentous occasion. The past twelve months have been filled with excitement, challenges, and most importantly, growth for our beloved town.

One of the most noticeable changes that came with the new form of government was the increased sense of community involvement. With more opportunities for residents to have their voices heard and participate in decision-making processes, the town has truly become a place where everyone's opinions are valued. This sense of inclusion has led to a stronger sense of unity and pride among Red Bank residents, and has helped to create a more vibrant and dynamic community.

In addition to increased community involvement, the past year has also seen significant progress in terms of infrastructure improvements and economic development. From road

repairs and beautification projects to new businesses opening their doors in town, Red Bank has seen a noticeable transformation in just a short amount of time. The new form of government has brought with it a fresh perspective and a renewed focus on growth and prosperity, and the results have been nothing short of impressive.

As we look back on the past year, it's clear that the decision to switch to a new form of government was a wise one. The positive changes and improvements that have taken place in such a short amount of time are a testament to the hard work and dedication of everyone involved in making this transition a success. The future of Red Bank looks brighter than ever, and we can't wait to see what the next year will bring.

So here's to the one-year anniversary of Red Bank's new form of government! Let's celebrate how far we've come, and look forward to all the exciting possibilities that lie ahead. Cheers to a bright future for our beloved town!

Employee Spotlight

Sergeant Heather Kovar

Traffic Safety Unit

Sergeant Heather Kovar, is one of the most recognizable and hardworking faces within the Red Bank Police Department. She is a 17-year veteran of the department and the supervising Sergeant in charge of the Traffic Safety Unit. A graduate of Brookdale Community College, she joined the police department in December of 2007 as a dispatcher and was quickly hired as a police officer in August of 2008. Heather is an invaluable asset to the department and aside from her normal duties, she also oversees the departments Field Training Officers program for new hires. She is known to lead by example and is often out pounding the pavement investigating accidents, enforcing laws, planning and coordinating special events or collecting data to use for street improvement programs. She is a breath of fresh air and a phenomenal employee. If you see the Sergeant out on the street, be sure to say hello.

Fireworks Safety

FIREWORKS are often used to mark special events and holidays. The only safe way to view fireworks is to attend a professional show. It is important to know that **fireworks are not safe in the hands of consumers**. Fireworks cause thousands of injuries each year.

A few ideas to get into the patriotic spirit, without fireworks:

1. Use glow sticks, they glow in the dark and are a safe alternative to a sparkler. Fun for all ages.
2. Loud and proud. Noise makers are sure to make a statement. They can be found at local party supply stores or make your own.
3. Outdoor movie night. Set up a screen and projector. Don't forget the bugspray!
4. Red, white and blue silly string...fun for all ages.
5. Make a patriotic craft with the family.
6. Throw a birthday party for the USA, and don't forget the cake.

BURN?

FACTS

- ! More than 19,500 reported fires are started by fireworks annually.
- ! Burns account for 44% of the 9,100 injuries treated in emergency rooms seen in the month around July 4.
- ! Half of the fireworks injuries seen at emergency rooms were extremities: hand, finger, or leg. One-third were to the eye or other parts of the head.
- ! Children ages 10–14 had the highest rate of fireworks injury, with more than one-third (36%) of the victims of fireworks injuries under age 15.
- ! Sparklers account for roughly one-quarter of emergency room fireworks injuries.
