Councilwoman Beck arrived at 7:40 p.m.

Parking Garage

Mayor McKenna said that we have had some very exciting phone calls made to us by several people that are interested in developing a parking garage through a public/private partnership and that he spoke to Councilman Murphy, Chairperson of the Parking Committee, and he spoke to the other members of the Committee and asked Councilman Murphy to speak.

Councilman Murphy said that since the last meeting and all of the publicity about the proposed parking garage there have been several proposals from private builders and developers regarding development of a parking garage. He said he asked them to put their proposals in writing. He thanked Councilman Bifani and Councilwoman Lee for serving with him on the Committee and also thanked all the Council Members and the public for letting him speak at the last meeting about the proposal and then taking the time to absorb the information. He said that he would like to wait and see what proposals we receive in writing.

Mayor McKenna said that a couple of the people that we talked to wanted to incorporate some age restricted affordable housing in the facility and some other interesting ideas and he would like to see these ideas put in writing to decide if it would be the right thing for the Borough of Red Bank. He said there has also been some discussion with our Fire Department to see if any of their needs for a facility could be incorporated in the structure because of structural problems at their current antiquated facilities and said there has also been a lot of misrepresentation of facts that have gone out to the public as far as various issues in this matter. He said that he had received a letter from a resident asking questions about the project and he is going to use this to put together information about the project so that it could be distributed to the community.

Councilwoman Beck said that she thinks there is a suggestion that the meeting be moved to another venue because there are 50 or 60 people in the hallway that cannot participate in the meeting.

Mayor McKenna said that it is not practical to move the meeting to another venue and that we would not be hearing the ordinance on first reading because we are going to wait for written proposals from individuals that have ideas about developing the parking garage. He said Councilman Murphy has talked to the other members of the parking committee and they have agreed to table the ordinance until the proposals are received and they have time to review them.

Councilman Murphy said that he would like to offer a motion to table the ordinance but still believes that Red Bank needs some kind of parking garage because if we do not have one we will constantly deal with the problems of a lack of parking and the problems the lack of parking causes with traffic. He said that he personally feels that we need a parking garage in Red Bank.

Councilwoman Beck said that she is not sure we need a parking garage because some of our parking lots, especially on the eastside are under utilized. She said most residents believe that we should not bear the risk of building a garage and do not like the idea of additional meters as well as the doubling of the fees.

Councilman Curley suggested that any recommendation from the Parking Committee go to a full referendum in the November election.

The Governing Body discussed various options that could be considered and Mayor McKenna said that the parking garage could be a source of revenue to the Borough and help alleviate further tax increases to the residents.

Mayor McKenna said that he is very proud to have a business and be a life-time resident from a multi-generational family of this town and would never gamble with the financial stability of the town. He said that we know we have economic needs and issues that have to be addressed and do not take issues lightly and will listen to every option that is available and will do what is in the best interest of the municipality.

Councilman Curley said one of the big objections he has heard was that the Borough should not be going into the landlord business and that government should not be in any business. He said he does not support any Borough employee being in a property management position.

2005-35 Mayor McKenna read “BOND ORDINANCE PROVIDING FOR THE CONSTRUCTION OF A PARKING GARAGE BY THE PARKING UTILITY IN, OF AND BY THE BOROUGH OF RED BANK, IN THE COUNTY OF MONMOUTH, STATE OF NEW JERSEY (THE “BOROUGH”); APPROPRIATING \$11,850,000 THEREFOR AND AUTHORIZING THE ISSUANCE OF \$11,850,000 BONDS OR NOTES TO FINANCE THE COST THEREOF.”
