Mr. Kaplan said we are ready to introduce the 2003 budget after many hours of hard work by Mayor McKenna, Councilman Curley, Mr. Loversidge and Mr. Sickels. He said with proposed budget cuts by the State we could expect little increase in state aid. He said we are looking at an increase of 4.99 cents and the budget is within the state mandated caps. He said there have been some new revenues added to the budget that will help defray the tax increase. He said we are

also going to have a rate increase in the water and sewer utility, since there has not been an increase in 12 years and we need down payment money for infrastructure repairs.

Mayor McKenna said this is just the introduction of the budget and does not mean it is the final budget. He said that 46 states in the United States have budget deficits and New Jersey is one of them. He said revenues are tight and the Borough is faced with similar circumstances. He thanked Mr. Loversidge, Mr. Sickels, Mr. Kaplan and the members of the Finance Committee for all of the work they did in putting this budget together. He said by introducing the budget tonight we would be able to apply for extraordinary aid and continue to look for funding to get the budget down further. He said we have numerous obligations that must be met, such as salaries, but we are also trying to reduce the staff. He said Mr. Kaplan has told him that Red Bank runs lean and mean and that we get the biggest bang for our buck. He said twelve years ago we had the second highest tax rate in Monmouth County but now we are twenty-fourth. He said we would continue to look for ways to lower the increase.

Councilman Curley said he has been in business many years and was very proud to work with Mr. Loversidge, Mr. Kaplan, Councilman Hintelmann and Councilman Menna. He said one day Mayor McKenna came in and worked with the Committee and worked very hard on reducing the increase of the tax rate, he said they would continue to work on the budget and said it is for introduction only.

PUBLIC HEARING 2003 RIVERCENTER BUDGET

**03-69 Mayor McKenna read “A RESOLUTION ADOPTING THE 2003 BUDGET
 OF THE SPECIAL IMPROVEMENT DISTRICT OF THE BOROUGH OF
 RED BANK”.**

Mayor McKenna opened the public hearing on the RiverCenter budget and asked if anyone would like to speak.

Albert Larotonda – 242 Spring Street- question the role of RiverCenter and asked at what point would the organization not be needed and asked if their budget is available.

Mayor McKenna said the budget is available and said RiverCenter is one of the finest special improvement districts in the state. He said there has been an evolution of RiverCenter and that they have their own mission statement. He said they are now performing a lot of different efforts and have taken on a much more business-orientated role.

Chris Cole – Chairperson of RiverCenter – said we are lucky to be where we are today and are trying to serve the whole community. He said that we question our own existence and noted that RiverCenter is self-funded. He said based upon our own self-funding the businesses within the special improvement district would have to make the decision about the existence of RiverCenter.

Mr. Larotonda asked if an organization like the Chamber of Commerce would be better and serve the same function.

Mayor McKenna said the businesses tried working with the Chamber of Commerce and it did not work because the Chamber serves sixteen towns.

Mr. Menna offered a motion to approve the resolution, seconded by Mr. Curley.

WORKSHOP

SEWER SYSTEM REPAIRS

Mr. Kosenki reported that our public works department discovered a sewer leak at a force main on Bodman Place and then we did some exploratory excavating. He said there is no threat of expansion or catastrophic failure. He said that recently we have found all the parts and are putting together the cost of the repair. He said we should have this information late next week and he would continue to meet with the Administrator, Attorney and Councilman Bifani.

WELL REPAIR

Mr. Kosenki reported that he has determined that there are some problems with well#4 located at Chestnut Street. He said he is putting together specifications and expects to get price quotes back on Wednesday or Thursday. He said the water that must be purchased from New Jersey American while the well is being repaired would be purchased at no additional cost because we are just going to substitute the purchase that would normally be purchased in the fall to now. He said once we get the costs involved for both projects we would have to introduce a bond ordinance.

PUBLIC WORKS SUPERVISORS

Mr. Sickels said that he has asked the public works supervisors to attend the meeting tonight to commend them for the extraordinary work they have done overseeing the department that has not had a supervisor since January 3, 2003. Mr. Sickels introduced George Lynch, Supervisor of Buildings and Grounds; Jesse Garrison, Supervisor of Solid Waste; Robert Holiday Jr., Supervisor of Water and Sewer; Jimmy Walker, Supervisor of Streets and Roads; and Rich Hardy, Supervisor of the Garage. He said the supervisors have really taken on the task of

running their divisions during a very busy winter season, logging in extra hours during numerous snowstorms. He said they have all worked as a team and he wants to commend them for their actions.

The Mayor and Council commended and thanked each supervisor for all of their hard work and working together to keep the town running better than ever.

Councilman Bifani said the five individuals up here are the backbone of the department and do not get recognized. He said these individuals have logged in so many hours, as did Mr. Sickels and Joyce Fertig. He said everyone has pitched in and turned the department around and said Mr. Sickels and Mr. Loversidge have ways to save additional money after cutting the budget by \$219,000. He said he is very proud of everyone.

Mayor McKenna said that we have not raised the water rates in twelve years. He said one of the reasons for the increases are plant improvements to the Two River Water Reclamation facility. He said that as a user of the facility we are required by law to pay our portion of the 21 million dollars worth of improvements to upgrade the facility to current standards imposed by the federal and state government. He said another reason for the increases are the upgrades to our sewer system and the replacement of the well at Chestnut Street. He said we should have a state of the art facility when we have completed our repairs and the increase would allow us to do this. He said the average resident would pay less than \$50. a year.

**2003-07 Mayor McKenna read “AN ORDINANCE AMENDING CHAPTER II
“ADMINISTRATION”, ARTICLE IV “ADMINISTRATIVE OFFICES”
OF THE REVISED GENERAL ORDINANCES”.**

Mayor McKenna said he has received a number of calls regarding this ordinance. He said this ordinance creates the position of Assistant Administrator and as a result of the budget crisis we must take a look at every department and make sure each one is running as efficiently as possible. He said we must also look at all the services the Borough offers and make sure they are being done in a cost efficient manner. He said since he has been a member of the governing body this has become a much more complex town in the last 17 years. He said we have consolidated the jobs of Construction Official, Fire Marshal and Administrator into one position and initially saved over \$50,000 a year. He said the town is a lot more active and we have observed that we function better when we are proactive. He said we always try to provide the best services at the lowest cost to our citizens and now we feel we must look at all services, departments and personnel to make sure everything is running in the most cost efficient manner. Mayor McKenna said he asked Mr. Sickels to prepare a list of his job responsibilities.

Mr. Sickels said four departments in the Borough are under transition and he is in the process of hiring department heads to run them. He said he has 16 departments reporting directly to him and all of these departments have numerous problems. He said when he first assumed the position all departments were running the day-to-day business of their departments. He said that now he has assumed the responsibilities of the water and sewer improvements and is also working on the temporary facility for public works while a new facility is being built. He said there are time consuming meetings regarding personnel and constant meetings with outside agencies, giving one example of meeting with the Department of Justice and implementing all of the required ADA improvements. He said we have implemented a lot of new programs over the years and he cannot be at three or four places at the same time. He said we really need to look at every department and analyze it to see if we can save money.

Mayor McKenna said we want the public to understand that we have had a lot of discussions about creating this position. He said he has to deal with Mr. Sickels on a constant basis and his duties are overwhelming. He said we work much better when we are proactive and feels this ordinance will save us money.

Mayor McKenna asked if anyone would like to speak.

Drew Horgan – 146 Branch Avenue – said that as an observer of local government an effective manager should not have more than four or five people reporting to him. He said the ordinance refers to “him” instead of being gender neutral and should be corrected. He also said the ordinance should be cleaned up in regards to the Acting Administrator and that it is very confusing.

Mayor McKenna said the ordinance reflects that in the absence of Mr. Sickels, Mr. Loversidge, our Chief Financial Officer, is Acting Administrator and when Bruce retires we would amend the ordinance.

Jim Harris – 97 Mechanic Street – commends Mr. Sickels for all of his hard work but feels that \$60,000 should be spent in the department of public works. He said each department head should be capable of handling their departments because we are already looking at an increased tax rate. He said we should not have the position.

Chris Cole – 1 Fisher Place – said he has been privileged to live here since 1996, has a business and home in this town. Said he has seen Mr. Sickels’ responsibilities grow and is in favor of getting him assistance.

Albert Larotondo – 242 Spring Street – does not understand why Mr. Sickels is doing three jobs, should just be administrator, feels that by him holding three jobs this is a conflict of interest, especially with the new rental registration ordinance that was just created.

Mr. Sickels said that the Construction Official forwards the information to the Clerk’s office, and said he is not receiving three salaries and if we were paying three individuals to do his job it would be a lot more.

Mr. Larotondo- said instead of hiring an assistant administrator we should hire a Fire Marshall and Construction Official because when he as Administrator is evaluating the fire and construction office he cannot look at it objectively. He also said that perhaps creating a full time mayor’s position would create more interest in running for mayor because last time there was such a poor turn out.

Mayor McKenna said he gets \$6,000 a year as mayor and puts in 30 to 40 hours a week.

Mr. Larotondo said if the mayor’s position was a paid position with benefits it would attract more people and perhaps it could take some of the workload off the administrator. He said he does not think one person should hold three titles.

Mayor McKenna said that back in 1987 there were three people holding the three positions and back then we were paying approximately \$165,000. He said we are just trying to run the Borough as efficiently as possible and have been doing a good job but feels the growth of the town has brought on added responsibilities in many areas. He also said that having a full time salaried Mayor would not be cost efficient.

Councilman Curley said that he serves on seven committees, spends one-third of his week and usually four evening out involved in borough business. He said he is very fortunate to be employed in a family business and does not have as many responsibilities as Mayor McKenna. He said he absolutely loves what he is doing and the Red Bank community but it is very time consuming.

Mr. Larotondo said he is not denying what they are saying but the Administrator should just stick to that job.

Mary Beth Van Pelt – 18 Worthley St. – asked if position is opened to the public.

Mayor McKenna said he corrected the ordinance to be gender neutral and said the position would be advertised and opened to the public.

Councilman Bifani said Mr. Sickels has a very hectic schedule on a daily basis and is supporting the ordinance.

Mayor McKenna asked if anyone would like to speak, no one appearing he closed the public hearing.

Mr. Hintelmann offered a motion to close the public hearing, seconded by Mrs. Thompson.

OLD BUSINESS

NEW BUSINESS

Councilman Menna said there is some interest in looking at the ways our schools are funded. He said this has not been changed in 53 years and one of the biggest problems in the state is relying on property taxes for school funding.

Councilman Curley said that 57 percent of our tax bill goes toward funding the schools and 20.5 percent to County government.

Councilman Menna said he would give the information regarding these bills to the Borough Clerk to distribute to the governing body.

AUDIENCE

Harriet Cook – RiverCenter – asked if there were any questions on the ordinance that was tabled regarding RiverCenter.

Mayor McKenna said it would be placed on the agenda for introduction at the next council meeting.

Albert Larotondo – 242 Spring Street – said there was work done at the intersection of Tower Hill Avenue and Branch Avenue with the addition of a handicapped ramp and now there is flooding there.

Councilman Bifani said it is already on the punch list for repairs by the contractor.

Mr. Larotondo said that when we implemented the ban on rollerblading and skateboarding on the streets we said there was a facility that was going to be built at the YMCA. He asked if we knew the status of that project.

Mr. Kosenksi said that he had a conversation with the staff of the YMCA and they said the project was put out to bid and the bids came back higher than expected. He said they were going to revise the plans and that he would contact the Y and find out the status of the project.

Jim Harris – 97 Mechanic Street – said that he drove to the state offices to speak about school funding and was told a change would require a constitutional amendment.

Mayor McKenna said there are numerous bills being discussed. He said that he had met with John McCormack, the Secretary of the Treasury and said more freedom is going to be given to municipalities. He said that in 2004 we should receive monies from the hotel tax and have also asked the Governor to pass a payroll tax. He said there are approximately 70,000 employees in Red Bank and if the Borough could implement that tax that could provide a big tax relief.

Joyce Calabro – 38 North Prospect Street – asked about the resolution authorizing aerial mosquito spraying and where the problem was in Red Bank.

Mr. Sickels said the Monmouth County Mosquito Commission would hold a public forum and would inform the Borough when they would be spraying.

Mayor McKenna said they do not know where the problems are and said they usually come with weather.

Councilman Menna said that if you look in the Asbury Park Press they put in ads where they will be spraying.
